

PRODUCT DATA SHEET

WALL SYSTEM SERIES AMMIL

SERIES AMMIL

The AMMIL Series glass wall panel system gives a unique accent to any wall. Backlit or not, AMMIL Series wall panels give a depth that you cannot achieve using other materials. The panels can be back-painted to match surrounding wall, and can include translucent designs which can be highlighted using an LED panel behind the wall to accentuate way finding features or corporate logos.

FEATURES

- Edgelit or backlit panels available
- Backpainted to achieve depth and opacity required
- Include way finding indicators or commercial logos
- Adds a unique upscale look to any project

BENEFITS

- Fabricated using metal and tempered glass
- Simple to install and easy to maintain
- Secure & reliable
- Design flexibility

ALUMINUM

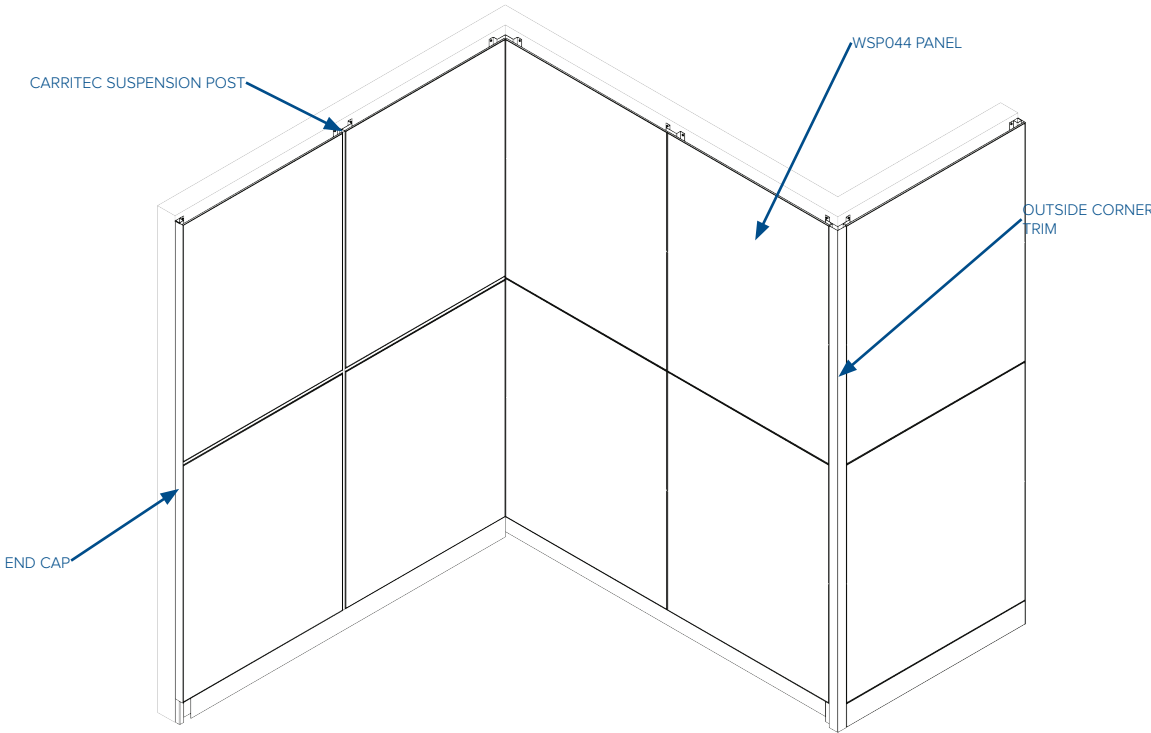

Material to comply with ASTM B 209, alloy and temper recommended by aluminum producer and finish requested, with strength and durability equal to or greater than the properties of the 3003-H14 for painted or laminated finishes and 5005-H14/32 for anodized finish.

Thickness: 0.032” to 0.050”

FIRE RATING

All metal wall panels and associated suspension systems are made entirely of noncombustible materials and meet all known code requirements.

TYPICAL ISOMETRICS & SECTIONS

STAINLESS STEEL

Material type 304 or 316 to comply with ASTM A-240

Thickness: 0.022” to 0.032”

STEEL

Material to comply with ASTM 653 / A653M

Thickness: 0.022” to 0.032”

WALL SYSTEM SERIES AMMIL
