

PRODUCT DATA SHEET

# CEILING SYSTEM CHASM

## CHASM

Designed specifically for areas where space is limited in the plenum, the CHASM system is a low profile and economical option. Using a low cost concealed suspension member, maintenance personnel will have unlimited access above the ceiling with each snap in panel being downwardly accessible.

### FEATURES

- Customizable sizes based on project requirements
- Concealed suspension members
- Acoustic properties available
- Different textures and colors available

### BENEFITS

- Easy installation and replacement of panels
- Flexible in design and function
- Cost-saving labor
- Ideal for low-clearance plenums

### ALUMINUM

Material type 3003-H14 (painted and laminated finish) or 5005-H14/32 (anodized finish) to comply with ASTM B-209  
Thickness: 0.032” to 0.050”

### ACOUSTICAL MEDIA

- Non-woven acoustical fabric
- Fiberglass acoustical media encased in black poly or PVC

### FIRE RATING

All metal ceiling panels and associated suspension systems are made entirely of noncombustible materials and meet all known code requirements.

### TYPICAL ISOMETRICS & SECTIONS

### PERFORATION PATTERNS

To learn more on our standard perforation patterns and our capability for custom patterns for architectural design, please contact one of our representatives. Custom creative designs are also available.

### STAINLESS STEEL

Material type 304 or 316 to comply with ASTM A-240  
Thickness: 0.022” to 0.032”

### STEEL

Material to comply with ASTM 653 / A653M  
Thickness: 0.022” to 0.032”
