

PRODUCT DATA SHEET

# CEILING SYSTEM CIRRUS

## CIRRUS

Designed with affordability in mind while not compromising on function or durability, the CIRRUS is a great option when versatility isn't required. With the ability to be used with the existing suspension grid, this system is perfect for renovations and retrofits, while being a great choice for new builds as well.

### FEATURES

- Concealed suspension look using existing grid
- Economical alternative
- Unlimited access
- Different textures and colors available

### BENEFITS

- Easy installation and replacement of panels
- No hassle
- Cost-saving labor
- Ideal for low clearance plenums

### ALUMINUM

Material type 3003-H14 (painted and laminated finish) or 5005-H14/32 (anodized finish) to comply with ASTM B-209  
Thickness: 0.032" to 0.050"

### ACOUSTICAL MEDIA

- Non-woven acoustical fabric
- Fiberglass acoustical media encased in black poly or PVC

### FIRE RATING

All metal ceiling panels and associated suspension systems are made entirely of noncombustible materials and meet all known code requirements.

### TYPICAL ISOMETRICS & SECTIONS

Panel Sizes Available  
2' x 2'  
2' x 4'

### PERFORATION PATTERNS

To learn more on our standard perforation patterns and our capability for custom patterns for architectural design, please contact one of our representatives. Custom creative designs are also available.

### STAINLESS STEEL

Material type 304 or 316 to comply with ASTM A-240  
Thickness: 0.022" to 0.032"

### STEEL

Material to comply with ASTM 653 / A653M  
Thickness: 0.022" to 0.032"
