

PRODUCT DATA SHEET
WALL PANEL BARRANCA

BARRANCA

Designed to give the look of wood planks, the BARRANCA is an extruded snap together system that provides the superior resistance and durability expected of an aluminum product. Available in a variety of finishes, including solid color powder coating and wood decoration, the BARRANCA system is a great alternative for both interior and exterior applications.

FEATURES

- Available in standard 2", 4", 6" and 8" plank widths
- Can be installed on any substrate material
- Strength and durability of extruded aluminum
- Different finishes and colors available

BENEFITS

- Progressive installation
- Access doors available
- Cost-saving labor
- Uniform look over long spans

FIRE RATING

All metal wall panels and associated suspension systems are made entirely of noncombustible materials and meet all known code requirements.

TYPICAL ISOMETRICS & SECTIONS

ALUMINUM

Material to comply with ASTM B 209, alloy and temper recommended by aluminum producer and finish requested, with strength and durability equal to or greater than the properties of the 6063-T6 for painted finishes.

Thickness: 0.047"
