PRODUCT DATA SHEET

WALL SYSTEM CHRYSALIS

WALL SYSTEM_____CHRYSALIS

CHRYSALIS

The CHRYSALIS wall system is an exterior wall system that is designed for large panels in a wide variety of finishes. The medium gauge aluminum used with the Series CHRYSALIS wall system allows for interesting panel design and shapes, while never compromising structural integrity. The CHRYSALIS wall system can be fabricated water-tight or as a rain screen.

FEATURES

- 0.125" aluminum panel face
- 3/4" reveal in all directions with reveal cover strips
- Non-progressive installation
- Large scale panels with amazing finish results

BENEFITS

- Strong enough to resist wind load and impact
- Water-tight or rain screen design
- Secure and reliable
- Flexibility in design and function

FIRE RATING

All metal wall panels and associated suspension systems are made entirely of noncombustible materials and meet all known code requirements.
ALUMINUM

Material to comply with ASTM B 209, alloy and temper recommended by aluminum producer and finish requested, with strength and durability equal to or greater than the properties of the 3003-H14 for painted or laminated finishes and 5005-H14/32 for anodized finish.

Thickness: 0.125"
