

PRODUCT DATA SHEET

COLUMN COVER SYSTEM SERIES SI

SERIES SI

The Series SI column cover system is the most cost effective system when a large diameter is desired. These columns can easily be installed in situations where accessibility is not required or where height restrictions on site are present.

FEATURES

- Can be used with any gauge of material, from light to heavy gauge
- No lifting space required
- Available in various shapes and sizes
- Incredible finish results in various textures and colors

BENEFITS

- Easy installation and replacement of panels
- Extremely durable
- Flexible in design and function

ALUMINUM

Material to comply with ASTM B 209, alloy and temper recommended by aluminum producer and finish requested, with strength and durability equal to or greater than the properties of the 3003-H14 for painted or laminated finishes and 5005-H14/32 for anodized finish.

Thickness: 0.063” to 0.190”

ACOUSTICAL MEDIA

- Non-woven acoustical fabric
- Fiberglass acoustical media encased in black poly or PVC

FIRE RATING

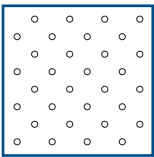

All metal ceiling panels and associated suspension systems are made entirely of noncombustible materials and meet all known code requirements.
