## NEAR OR FAR

Years of experience and knowledge in the field of commercial design and production give Carritec an edge for creating structures that withstand the elements. From the selection of materials to the shape of the framework, we are able to produce structures of all sizes that allow our customers to convey the right message, from near or far.

# IT'S ALL IN THE DETAILS

Thanks to our extensive selection of materials, our wide variety of tools, and our keen attention to detail, we have the ability to manufacture products that are embellished with very intricate details. We can apply ornate touches to even the most industrial products, allowing ideas to flow without limitation.

## SMALL TO LARGE SIGNAGE

*The strength and durability of metal*

## LARGE SCALE, MADE SIMPLE

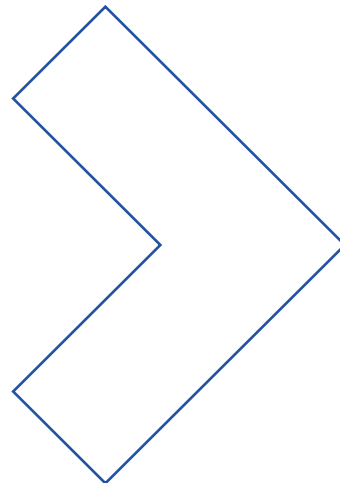

For signage projects, large or small, Carritec has got you covered. Our 118,000 square foot plant is equipped with the cutting edge technology needed to achieve results that exceed our customers' expectations. From sleek steel to sustainable aluminum, we use only the finest-quality materials to ensure the strength and durability of our products, for beauty and functionality that lasts.

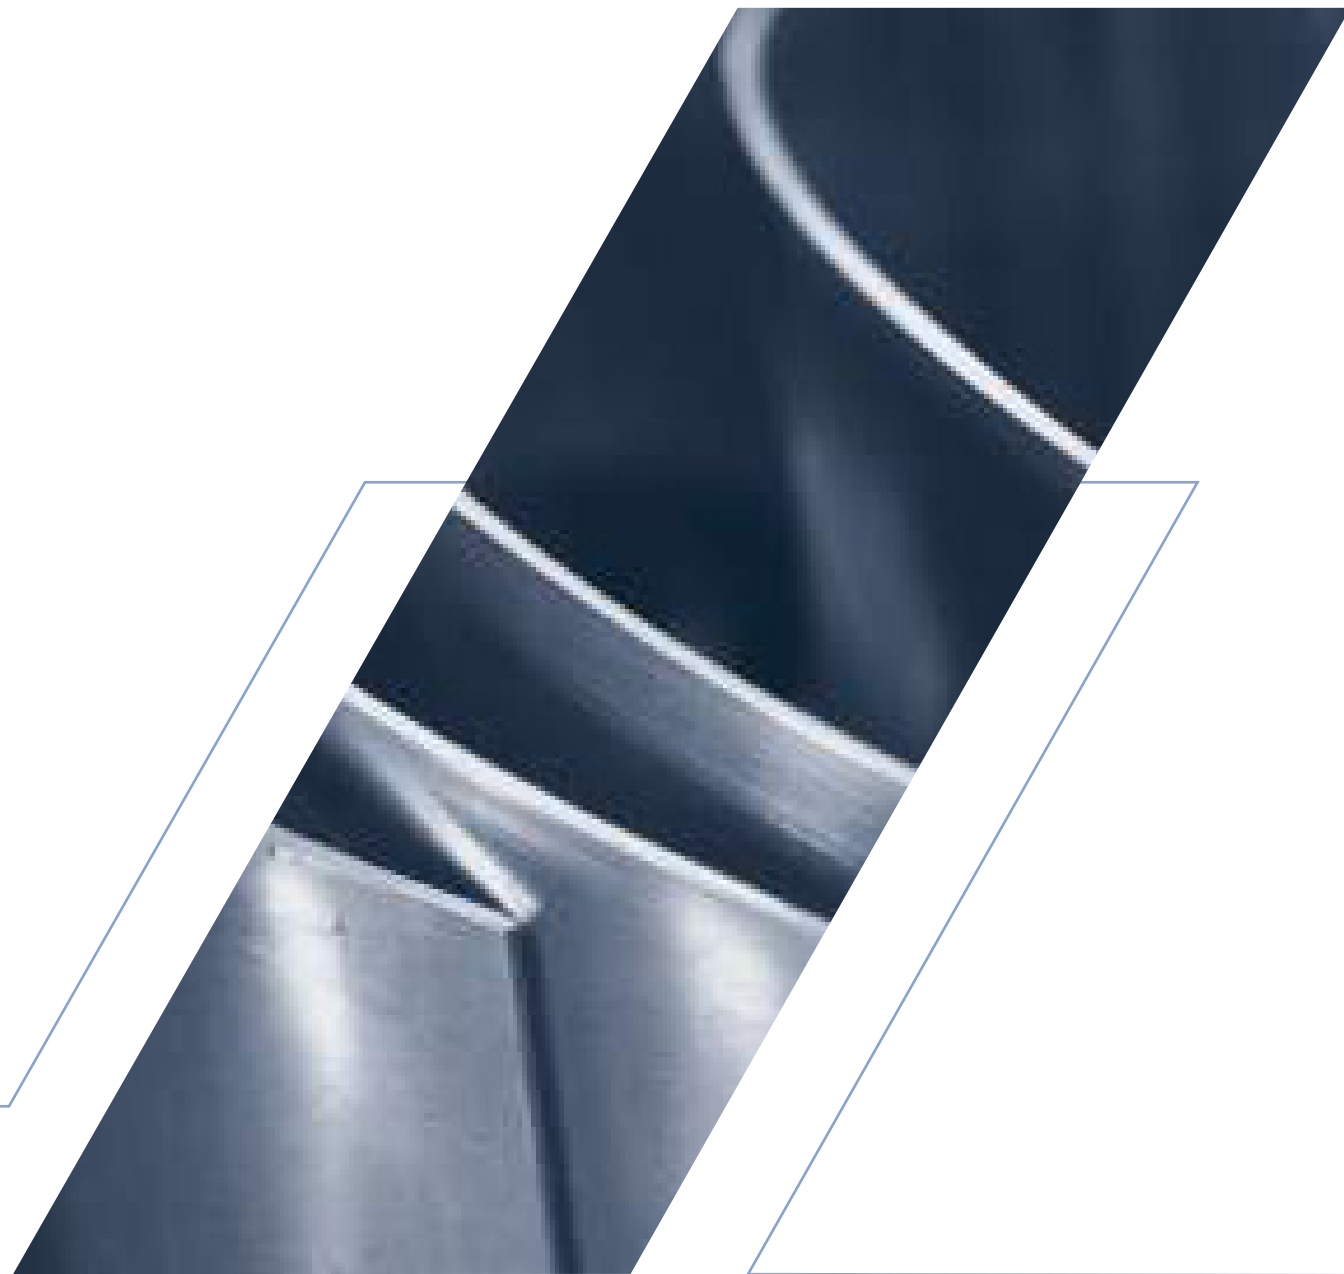

# BRINGING VISIONS TO LIFE

Carritec unifies the ideas of those involved, tending to the requirements of clients on projects in various markets such as Transportation, Entertainment, Corporate, Institutional, Hospitality and Retail.

## CAPTURING THE ESSENCE

Our technical expertise and specialization in the manufacturing of materials allow us to provide solutions that accurately express our customers' unique styles. We put emphasis on what is important to our clients through careful attention to detail.
